StairLite

StairLite – One Step Ahead

Already a secret "HighLite" are the illuminating stair lights with individual logo, ship name or owner's initials.

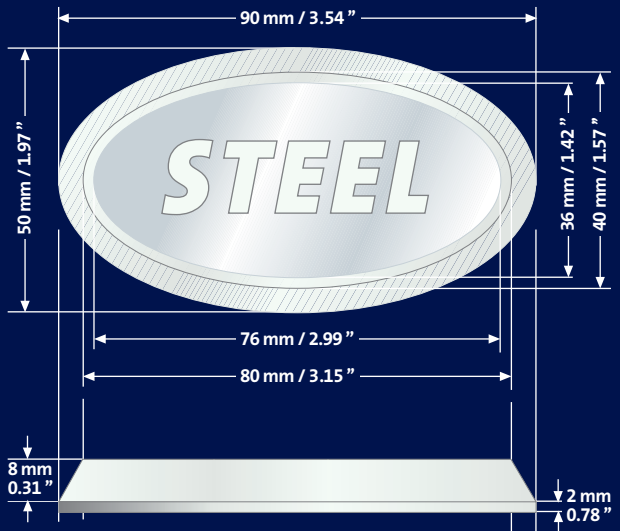

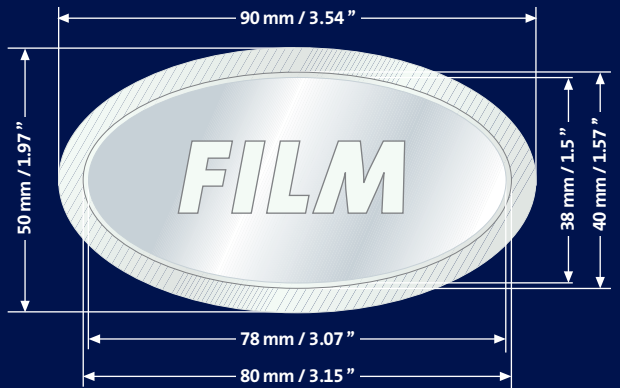

StairLites are not only optically appealing but they also demonstrate a great practical value.

Perfectly suited as highly reliable stairway, gangboard, cockpit and floor illumination, the StairLites discreetly add a personal touch to your yacht.

The StairLite's standard format is 90 x 50 x ca.10 mm with bevelled edges. Special forms and neutral surfaces are also possible. A further distinction is the easy mounting.

The StairLites are available in either large or small (from 10 articles) quantities supplied according to request with shipyard logo, ship's name, owner's initials or personal design, optionally with laminated film or stainless steel surfaces.

- 10 mm acrylic
- LEDs in warm white, cold white, blue, red, green, yellow and orange
- For 12 or 24 Volt on-board supply systems
- High performance surface in various colours or with stainless steel
